Howard B. Jackson,	Frederick B. Willard.

Gynæcological House Physicians.

(For six months ending July 15, 1901.)

James H. Shannon.

(For six months ending January 20, 1902.)

Herbert C. de V. Cornwell.

(For six months beginning January 20, 1902.)

William G. Dwinell.

Ophthalmic and Aural House Surgeons.

(For six months ending July 1, 1901.)

Peter H. Thompson.

(For six months ending January 6, 1902.)

William H. Lowell.

(For six months beginning January 6, 1902.)

David Nelson.

Pathological House Officers.

(For six months ending July 1, 1901.

Walter R. Brinckerhoff.

(For six months ending January 6, 1902.)

Elmer E. Southard.

(For six months beginning January 6, 1902.)

Ralph L. Thompson.

Senior Medical Internes. *Senior Surgical Internes.*

(For six months beginning January 20, 1902.)

Alfred H. Childs,	Percy Bartlett,
Thomas F. Leen,	David Cheever,
Samuel G. Underhill,	Peer P. Johnson.

Gynæcological Interne.

(For six months beginning January 20, 1902.)

Wallis D. Walker.

Pathological Interne.

(For six months beginning January 6, 1902.)

Louis Hoag.

Junior Medical Internes. *Junior Surgical Internes.*

(For six months beginning January 7, 1902.)

Michael F. Barrett,	Lincoln F. Sise,
John S. Waterman,	Fritz W. Gay,
John H. Cunningham, Jr.,	Dwight M. Lewis.

Medical Externes. *Surgical Externes.*

(For six months beginning January 6, 1902.)

Nathaniel K. Wood,	William C. Peters,
George P. Sanborn,	Raphael C. Thomas,
Russell S. Rowland,	Stuart V. R. Hooker.

Gynæcological Externe.

(For six months beginning January 6, 1902.)

Nathaniel R. Mason.

HOSPITAL OFFICERS.

George H. M. Rowe, M.D., *Superintendent.*
E. Stanley Abbot, M.D., *Assistant Superintendent.*
Frank H. Holt, M.D., *First Executive Assistant.*
Harry H. Germain, M.D., *Second Executive Assistant.*
Samuel M. Nesmith, *Steward.*
Miss Lucy L. Drown, *Superintendent of Nurses and Matron.*
Greenleaf R. Tucker, B.S., *Chemist.*
Henry A. Christian, M.D., *First Assistant in Pathology.*
Walter R. Brinckerhoff, M.D., *Second Assistant in Pathology.*
Miss Ida Washburne, *Assistant Superintendent of Nurses.*
Miss Inez C. Lord, *Second Assistant Superintendent of Nurses.*
Miss Harriet M. Seaver, *Night Superintendent of Nurses.*
Miss Abbie A. Bliss, *Assistant Matron.*

SOUTH DEPARTMENT.

J. H. McCollom, M.D., *Resident Physician.*
Robert Hazen, M.D., *Assistant Resident Physician.*
William E. Currier, M.D., *Assistant Resident Physician.*
Miss Mary M. Riddle, *Assistant Superintendent of Nurses and Matron.*

House Officers (Senior).

Ralph B. Ober,
Whitman G. Stickney,
Perez B. Howard,
Frank A. Murphy.

House Officers (Junior).

Lloyd H. Mills,
Ralph F. Hodgdon.

CONVALESCENT HOME.

Miss Elizabeth C. Fairbank, *Matron.*

REPORT OF THE TRUSTEES.

THE BOSTON CITY HOSPITAL,
BOSTON, January 31, 1902.

HON. PATRICK A. COLLINS,
Mayor of the City of Boston:

The Trustees of The Boston City Hospital, in compliance with the Ordinances, respectfully present herewith the thirty-eighth annual report *for the year beginning February 1, 1901, to January 31, 1902, inclusive:*

NUMBER OF PATIENTS AND EXPENDITURES.

Number of patients remaining in the Hospital January 31, 1901		470
Admitted from February 1, 1901, to January 31, 1902, inclusive:		
Medical	3,236	
Surgical	3,866	
Gynæcological	744	
Ophthalmic	118	
Aural	69	
		8,033
Treated during the year		8,503
Discharged during the year	7,156	
Died during the year	961	
		8,117
Number of patients remaining in the Hospital January 31, 1902		386
Largest number of patients in the Hospital at any one time		495

Smallest number of patients in the Hospital at any one time	315
Daily average number of patients	$409\frac{8}{100}$
Average number of days' stay of patients	$17\frac{56}{100}$
Number of patients accidentally injured, admitted,	1,091
Number of weeks' treatment given in Hospital	21,330
Number of days' treatment given in Hospital	149,313
Number of applicants for admission to Hospital	12,030
Number of applicants rejected	3,997
Number of patients treated in Convalescent Home,	386

Number of patients treated in the Out-Patient Departments, classified according to diseases:

For medical diseases	6,896
" surgical "	9,953
" diseases of the eye	2,084
" " " " ear	1,041
" " " " skin	1,262
" " " women	830
" " " the nervous system	613
" " " " throat	1,651
Surgical out-patients treated in the accident-rooms, and not elsewhere included	4,305
Total number of out-patients	28,635

Number of visits by patients to the Out-Patient Departments, classified according to diseases:

For medical diseases	10,159
" surgical "	51,445
" diseases of the eye	5,581
" " " " ear	5,136
" " " " skin	2,592
" " " women	4,838
" " " the nervous system	3,957
Carried forward	83,708

Brought forward	83,708
For diseases of the throat	4,087
Surgical out-patients treated in the accident-rooms, and not elsewhere included	4,305
Total number of visits of out-patients .	92,100

STATISTICS OF PATIENTS ACCORDING TO SERVICES, FEBRUARY 1, 1901, TO JANUARY 31, 1902, INCLUSIVE.

SERVICES.	In Hospital Feb. 1, 1901.	Admitted.	Discharged.	Died.	Total Discharged and Died.	In Hospital Feb. 1, 1902.
First Surgical	79	1,311	1,193	137	1,330	60
Second Surgical	73	1,333	1,189	151	1,340	66
Third Surgical	73	1,222	1,121	116	1,237	58
First Medical	65	1,166	974	206	1,180	51
Second Medical	55	1,046	893	157	1,050	51
Third Medical	65	1,024	896	144	1,040	49
Gynæcological	44	744	698	47	745	43
Ophthalmic	9	118	124	1	125	2
Aural	7	69	68	2	70	6
Totals	470	8,033	7,156	961	8,117	386

The entire expenditures for all departments of the Hospital during the year were $445,291.50. Of this amount $317,438.13 was on account of the Hospital proper; $98,419.82 on account of the South Department; $8,192.05 on account of the eight Out-Patient Departments; $9,631.10 for the Convalescent Home; $369.25 on account of determining the settlement of paying patients; $629.46 on account of the Relief Station; and $10,611.69 on account of Pathological Department.

To the amount expended for the Hospital proper, $317,438.13 (see Table 1 in Superintendent's Report), there should be added the difference in the amount of stock on hand February 1, 1902, which was $1,075.47 less than February 1, 1901. There should also be deducted $665.63 for printing Medical and Surgical Reports, and $411.84 for card cataloguing clinical records, making the total amount chargeable

to the expenditures of the year $317,436.13. There were given 21,330 weeks' board to ward patients, and after deducting the money collected from all sources for pay patients and other income the net cost to the city per capita, per week, was $11.83.

The maximum number of patients in the Hospital proper at any one time was 495, and the minimum number 315. The daily average number of patients was $409\frac{8}{100}$. The total number of patients treated in the wards was 8,503.

RÉSUMÉ OF FINANCES FOR THE YEAR.

Total expenditures for Hospital Department		$445,291 50
Stock on hand February 1, 1901, Hospital proper		26,934 57
Stock on hand February 1, 1901, South Department		5,983 37
		$478,209 44
DEDUCT.		
Printing Medical and Surgical Reports	$665 63	
Expense cataloguing Clinical Records	411 84	
Maintaining Out-Patient Departments	8,192 05	
Maintaining Pathological Department	10,611 69	
Expenses of Settlement Account	369 25	
Maintaining South Department	98,419 82	
Maintaining Convalescent Home	9,631 10	
Relief Station	629 46	
Stock on hand February 1, 1902, Hospital proper	25,859 10	
Stock on hand February 1, 1902, South Department	6,328 90	
Income from all sources	64,659 80	
		225,778 64
Net cost to the city for maintaining Hospital proper		$252,430 80

The tables of disbursements in Superintendent's Report show the expenditures of the Hospital Department during the fiscal year, February 1, 1901, to January 31, 1902, inclusive. Table No. 1 in Superintendent's Report shows the disbursements by departments, according to the general subdivisions, and includes statistics of the department divided into the Hospital proper, Out-Patient Departments, Pathological Department, Settlement Account, South Department, Convalescent Home and Relief Station. Table No. 2 in Superintendent's Report shows the disbursements for the year in the same departments, itemizing the various subdivisions, and includes, for all practical purposes, the quantity, cost and average price paid for the various items.

The total expenditures during the fiscal year for the Hospital Department, in all its various branches, have been $445,291.50, and the disbursements have been made as follows:

The Hospital proper	$317,438 13
Out-Patient Departments	8,192 05
Pathological Department	10,611 69
Settlement Account	369 25
South Department	98,419 82
Convalescent Home	9,631 10
Relief Station	629 46
Total	$445,291 50

The Hospital Proper. — The Hospital has three subdivisions: The Hospital proper, Out-Patient Departments, and the Pathological Department. In computing the *pro rata* cost, per patient, per week, the cost of the Pathological Department is included in that of the Hospital, but for executive reasons is tabulated separately, in order to show the cost of running that department. The expenditures for the South Department for infectious diseases and the Convalescent Home are kept in separate tables.

South Department. —The total expenditure for the South Department was $98,419.82, against $94,009.17 for the pre-

vious year, and allowing for the difference in stock at the beginning and close of the year, the sum of $98,074.29 represents the cost of the maintenance for the fiscal year. The per capita weekly cost at the South Department was $8.08.

Out-Patient Departments. — The expenditure in the various Out-Patient Departments was $8,192.05.

Convalescent Home. — The expenditure for the Convalescent Home was $9,631.10. The daily average was twenty-two patients, and the average weekly cost $8.43.

The total expenditures in the Hospital Department have been $445,291.50, but the net cost to the city for maintaining the Hospital proper was only $252,430.80.

The expenditure upon the Hospital proper was for the care of 8,503 patients in the wards for 149,313 days' or 21,330 weeks' board, which makes an average weekly cost of $14.88, or a daily cost of $2.11 for patients of all classes. The net cost per patient, per week, to the city was only $11.83. The cost of uncooked food supplies for all persons, including patients and the entire household at the Hospital proper, was $94,099.55. The average number of patients was 409; of officers and employees, including house and nursing staff, 361; or a total daily average of 770 persons. The number of weeks' board for all persons was 40,182, and the weekly cost per person, for uncooked food supplies, was $2.34, or 33 cents per day.

There has been collected and paid into the City Treasury during the year $62,523.63 on account of all classes of paying patients, as follows:

From cases paid by the Commonwealth .	$24,825 47
From town and city cases	12,173 92
From private and ward-paying patients .	24,011 88
From the South Department . . .	1,512 36
Total	$62,523 63

The interest received from trust funds for the support of free patients was $1,991.50, and from the sale of old material $144.67. These sums amount to $64,659.80, which was the total income of the Hospital Department for the fiscal year.

Interest on trust funds, $1,991.50, was added to Hospital appropriation. Income from paying patients, $62,523.63; from old material, $144.67; total, $62,668.30, was paid into the City Treasury, and hence could not be used for Hospital expenditures. This sum reduces the net cost to the city for the Hospital Department, for all purposes, to the sum of $380,631.70, and for the Hospital proper, $252,778.33.

There have been treated in the various Out-Patient Departments 28,635 patients, at a cost of $8,192.05. Other statistics, found elsewhere, include the number of out-patients, number of their visits, rate of mortality, work of ambulances, census of days' board of all persons, the occupation, nativity, ages and civil condition of patients admitted, and physical condition of patients when discharged, which have been tabulated as Hospital statistics.

The report of the Superintendent, presented herewith, contains, besides other information, a more detailed statement of the year's expenditures, the number of patients admitted, and is accompanied by the medical and surgical statistics. These tables give in detail the number of patients treated in the Out-Patient Departments during the year, with classified statements of their diseases and results of treatment.

PAYING PATIENTS.

There has been collected from patients of all classes the sum of $62,523.63. There was received from the Commonwealth of Massachusetts, for the board of patients, $24,825.47; from various cities and towns, $12,173.92; there has been collected at the Superintendent's office, on account of private room and ward-paying patients, $24,011.88, and for the board of paying patients at the South Department, $1,512.36. During the last nineteen years there has been collected and paid into the City Treasury a total of $917,897.84.

OUT-PATIENT DEPARTMENTS.

The total number of out-patients treated this year was 28,635. Nearly all the Out-Patient Departments, the Surgical excepted, showed an increase in attendance. The decrease in the number of Surgical Out-Patients is due to the closing

of that department to all but emergency cases from November 26 to December 30, on account of the number of cases of small-pox in the city, and the consequent danger of bringing the infection into the Hospital. The number of visits was 92,100. In June, 1901, the Surgical Out-Patient Department moved to temporary quarters, as the building previously occupied was to be torn down to make way for a larger and more commodious structure. The Surgical Out-Patient Department occupied the Casualty wards and adjoining rooms. The purposes of the Casualty wards were continued by temporarily using the commodious Recovery rooms, on the floor above. The work of the Surgical Out-Patient Department is better provided for in these temporary quarters than in the old building. The work of all the Out-Patient Departments continues to grow.

The capacity of the Hospital, in all its departments, last year was 828 beds. Owing to the demolition of Pavilion III., Wards K and L have not been available, and the capacity has thus been temporarily diminished by ninety-two beds. The available beds this year are as follows:

Hospital proper	436
South Department	264
Convalescent Home	36
Total	736

The temporary deficiency has been met by changing the services in several wards, and has worked fairly well, although at times cases have been rejected that we wish could have been received.

HOSPITAL RENOVATIONS.

The report of the Superintendent shows that the amount expended on general repairs to buildings, in all departments of the Hospital, was $35,070.64, of which amount $25,884.72 was upon the Hospital proper, this sum including all repairs upon buildings, heating and lighting apparatus, plumbing, refrigerating system, walls, fences, drains and sewers, and annual house-cleaning expenses.

NEW BUILDINGS.

The building known as the "old lodge," and mostly used for the accommodation of the Surgical Out-Patient Department, was torn down, and in its place a new three-storied building is now being erected. The lower floor, partially below grade, is made available by construction of areas. This building will be used for the Surgical and other Out-Patient Departments; the upper story being intended in part for rooms for junior house officers and for orderlies.

A new three-storied building to replace Pavilion III., which has long been condemned as an unhygienic building, unsuitable for patients, is now being constructed. The old building has been removed and a three-storied building is now being erected, which will give accommodation for 114 patients. These wards have been adapted for isolating rooms for patients who ought to be separated from the ordinary medical and surgical open wards.

Other additions to the Hospital buildings have been made during the year. The two houses for nurses have been connected by a covered corridor. The corridor is simple in its design, but harmonizes with both buildings. It is arranged as an open corridor in summer, and can be changed into a closed corridor during the cold season. It has demonstrated its usefulness during the recent winter.

The Relief Station is now practically finished and furnished, and will be opened during the coming month. This building is more fully described elsewhere. The Trustees believe that this station will meet the requirements of the northern and eastern sections of the city.

The Trustees do not intend that this shall be a hospital in the usual sense of the word, because the situation and surroundings are not favorable to hospital conditions. Primarily it is intended that prompt and efficient aid shall be rendered to the sick or the injured who need surgical or medical relief, practically including all classes of emergency cases. The Relief Station will be equipped with a first-class ambulance service, and will be made sufficient to meet all such demands as experience may teach us will be necessary.

This section of the city, including Charlestown and East Boston, has rapidly increased in railroads, steamships, general transportation and manufacturing purposes, and, obviously, causes a greater amount of physical injury than existed in former years. The Trustees confidently expect that this branch of the Hospital service will prove a most beneficent one in first aid to the injured, and a great boon to large numbers of persons who may, unfortunately, be injured.

For several years there has been a demand for some way whereby the house officers could obtain proper physical exercise during the winter months. There was no place within the present Hospital buildings that could be diverted from the necessary Hospital work. The Trustees did not believe they could properly divert appropriations received for Hospital purposes to such use. There was placed in the hands of the Trustees the sum of $1,000, the result of voluntary contributions from graduated house officers, the Hospital Staff and friends. With this there has been constructed a wooden building 40 by 38 feet, suitably arranged to accommodate two regulation courts, which may be used both for squash tennis or a handball court. It is lighted by electricity, and may be used during the evening.

Several improvements have been made; new elevators both on the Medical and Surgical wings. A two-storied storage house, 110 by 20 feet, has been built on the wharf yard. This gives ample accommodations for the storage of bedsteads, furniture, and other outfit for our tent system. This supplies us with the means to meet great emergencies which, from time to time, happen in a large city, — as during the late war, when we had accommodations for 160 soldiers. This storage house also receives second-hand building material, odds and ends of value, not required for immediate use, but which should serve an economic purpose when wanted, and which should not be stored in basements of buildings devoted to the sick.

HOSPITAL NECESSITIES.

In the development of medical science in hospitals, new and sometimes rapid changes occur, making it necessary to supply increased and costly additions. For six years great

progress has been made in X-ray work and hospital photography, until it is now considered an indispensable adjunct for properly carrying on scientific work, both surgical and medical. The Trustees desire to carry out the wishes of the Visiting Staff in furnishing proper facilities and all the requirements for the proper development of X-ray and photographic work, suited for hospital work. The Trustees are gratified at the commendable work already done. At present this work is restricted to a small basement room, entirely inadequate, and under great disadvantages. The Trustees believe that this process has passed the experimental stage, and has vindicated its usefulness sufficiently to warrant them in recommending a new and special building adapted for the combined work of an X-ray clinic and hospital photography.

If this is worth doing at all, it is worth doing well. The Trustees recommend that a new building be erected, and that $100,000 be appropriated for this and allied purposes.

SOUTH DEPARTMENT.

The statistics for the South Department for infectious diseases for the year from February 1, 1901, to January 31, 1902, are as follows:

Number of patients remaining in the South Department January 31, 1901		302
Admitted from February 1, 1901, to January 31, 1902, inclusive		2,506
Treated during the year		2,808
Discharged during the year	2,227	
Died during the year	353	
		2,580
Number of patients remaining in the South Department January 31, 1902		228
Largest number of patients in the South Department at any one time		318
Smallest number of patients in the South Department at any one time		146
Daily average number of patients		232

Average number of days' stay of patients . . .	30
Number of weeks' treatment given in the South Department	12,135
Number of days' treatment given in the South Department	84,946
Number of applicants for admission to the South Department	3,558
Number of applicants rejected	1,052
Number of patients admitted over fifteen years of age .	458
Number of patients dying within twenty-four hours of admission	74
Number of patients dying within forty-eight hours of admission	29
Average age of patients	9

The daily average number of patients was 232; the total number of weeks' board was 12,135. Of the total number of patients admitted 353 have died, which includes 103 who died within forty-eight hours after admission, or 29 per cent. of all deaths. The death rate of diphtheria during the year was 10.8 per cent.

There will be found on pages 52 to 54 a detailed account of the expenditures of this department, the various sub-divisions being kept the same as at the Hospital proper. The approximate sum expended upon this department has been $98,419.82, from which there should be deducted the difference in the amount of stock on hand February 1, 1902, which was $345.53 more than was on hand February 1, 1901. This gives $98,074.29 as the sum charged to maintenance for the year. This sum expended upon 2,808 patients and divided by 12,135 weeks' board, gives $8.08 as the cost per patient per week. The total expenditures upon subsistence supplies was $27,146.09, and the total number of weeks' board for an average of 347 persons, was 18,097. This gives a weekly cost per person, for uncooked subsistence supplies, of $1.50, or 21 cents per day.

The South Department, originally intended for 240 beds, has, for continuous months during the past year, ranged from 146 to 318 patients. During the year, 209 applicants were rejected, because at the time of the applications there were

no vacant beds and the wards were already crowded to a degree far in excess of safety. At times, during an epidemic of measles, we are wholly unable to admit applicants with this disease. The original plan of an additional building for the treatment of measles should be completed.

CONVALESCENT HOME.

The number of patients treated during the year was 386; the total number of days' board was 7,992; the average weekly cost per patient was $8.43.

TRAINING SCHOOL FOR NURSES.

The Training School for Nurses is in the twenty-fourth year of its organization. Six hundred and eighty-six pupils have been graduated. The School now numbers 136 nurses. They are distributed as follows: Ninety-eight are at the Hospital proper, 36 at the South Department, and 2 at the Convalescent Home. Thirty-two nurses have now received the third-year course. Of our graduates, 111 are now engaged in hospital work, as superintendents, superintendents of nurses, or other responsible positions. The number of applicants is consequently increasing.

MEDICAL AND SURGICAL REPORTS.

The twelfth series of the Medical and Surgical Reports was issued this year, the same having been edited by Drs. Burrell, Councilman and Withington. The demand for copies of these reports is annually increasing, and from sources which show that they are much valued as scientific papers.

MEDICAL AND SURGICAL STAFF.

The following are the changes in the Medical and Surgical Staff during the present year:

J. Orne Green, M.D., Aural Surgeon, resigned, and was appointed Advisory Surgeon.

Vincent Y. Bowditch, M.D., Visiting Physician, resigned, and was appointed Consulting Physician and Surgeon.

J. Bergen Ogden, M.D., Assistant in Clinical Pathology; Edwin C. Jack, M.D., and Walter B. Lancaster, M.D., Ophthalmic Surgeons; Wm. J. Daly, M.D., Assistant to the Ophthalmic Surgeons; Harry C. Low, M.D., First Assistant in Pathology; Ralph C. Larrabee, M.D., Medical Registrar; C. Ellery Stedman, M.D., and Daniel D. Gilbert, M.D., Physicians to the Convalescent Home, resigned their positions.

The following promotions have been made:

John L. Ames, M.D., from Senior Out-Patient Physician to Assistant Visiting Physician; George Haven, M.D., from First Assistant Visiting Physician for Diseases of Women to Junior Visiting Physician for Diseases of Women; Edward Reynolds, M.D., from Second Assistant Visiting Physician for Diseases of Women to First Assistant Visiting Physician for Diseases of Women; Frank A. Higgins, M.D., from Third Assistant Visiting Physician for Diseases of Women to Second Assistant Visiting Physician for Diseases of Women; Henry A. Christian, M.D., from Second Assistant in Pathology to First Assistant in Pathology; Henry Jackson, M.D., from Assistant Visiting Physician to Visiting Physician; Horace D. Arnold, M.D., from Physician to Out-Patients to Assistant Visiting Physician; Allen Greenwood, M.D., and Edward R. Williams, M.D., from Assistants to the Ophthalmic Surgeons to Ophthalmic Surgeons.

The following new appointments were made:

Ralph C. Larrabee, M.D., Physician to Out-Patients; Franklin S. Newell, M.D., Third Assistant Visiting Physician for Diseases of Women; Walter R. Brinckerhoff, M.D., Second Assistant in Pathology; John W. Bartol, M.D., Medical Registrar; Franklin W. White, M.D., Physician to Out-Patients; Robert L. Emerson, M.D., Assistant in Clinical Pathology; James A. Mahon, M.D., and John P. Treanor, M.D., Physicians to the Convalescent Home. Pending a change in the Rules, Frederick J. Cotton, M.D., William E. Faulkner, M.D., and Joshua C. Hubbard, M.D., were appointed to act as additional Third Assistant Visiting Surgeons. Earlier in the year, William E. Faulkner, M.D., was appointed Fourth Assistant Visiting Surgeon for four months, beginning April 1, 1901. Benjamin Tenney, M.D., was appointed Fourth

Assistant Visiting Surgeon for six months, beginning July 1, 1901. Luther G. Paul, M.D., was appointed Fourth Assistant Visiting Surgeon for six months, beginning December 1, 1901. Foster H. Cary, M.D., was appointed Fourth Assistant Visiting Physician for Diseases of Women for six months, beginning May 1, 1901. Leo V. Friedman, M.D., was appointed Fourth Assistant Visiting Physician for Diseases of Women for six months, beginning November 1, 1901. Sylvester F. McKeen, M.D., was appointed Assistant to the Physicians to Out-Patients for six months, beginning February 1, 1901. Michael J. Cronin, M.D., was appointed Assistant to the Physicians to Out-Patients for six months, beginning July 1, 1901. W. T. Councilman, M.D., George W. Gay, M.D., John G. Blake, M.D., and A. L. Mason, M.D., were reappointed as Advisory Staff for the South Department.

The Trustees renew their grateful acknowledgments for many and various services bestowed upon the sick. The Christmas and Easter music and flower missions have made Christmas and Easter bright and joyous days, and have been specially enjoyed by the patients in the free wards. The City Missionary Society and the Episcopal City Mission have made their usual weekly and special visits, and their work has been practical and often of much benefit. The Boston Young Men's Christian Union has supplied the convalescents with free rides in the parks.

The Hospital is indebted to many persons for the gifts of clothing, books, reading matter, toys and books for children.

The Trustees desire to express their high appreciation of the valuable services in their constant and painstaking attention to the sick by the Medical and Surgical Staff, and wish to emphasize the value of the faithful interest shown by them appertaining to the welfare of patients and to the Hospital generally.

Mr. Lamont G. Burnham was reappointed as Trustee for the term of five years from May 1, 1901.

Respectfully submitted,

For the Trustees,

A. SHUMAN,
President.

REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

THE BOSTON CITY HOSPITAL, January 31, 1902.

To the Trustees:

GENTLEMEN, — I have the honor to present herewith my annual report of the Hospital for the year February 1, 1901, to January 31, 1902, inclusive.

The following table shows the number of patients who have each year applied for admission and been treated at the Hospital proper:

	Patients examined for admission.	Patients admitted.	Patients accidentally injured.	Number of out-patients treated.
From June 1, 1864, to Dec. 31, 1864 (7 mos.)	703	475	129	371
From January 1, 1865, to Dec. 31, 1865.....	1,451	1,066	242	1,143
From January 1, 1866, to Dec. 31, 1866.....	1,749	1,432	345	3,324
From January 1, 1867, to Dec. 31, 1867.....	1,913	1,534	328	7,015
From January 1, 1868, to Dec. 31, 1868.....	2,729	2,078	417	8,794
From Jan. 1, 1869, to April 30, 1870 (16 mos.).	4,632	3,054	482	11,791
From May 1, 1870, to April 30, 1871.....	3,977	2,396	525	8,899
From May 1, 1871, to April 30, 1872.....	4,387	2,873	565	8,947
From May 1, 1872, to April 30, 1873.....	4,326	3,304	660	7,526
From May 1, 1873, to April 30, 1874.....	4,250	3,201	804	9,272
From May 1, 1874, to April 30, 1875.....	4,652	3,424	756	8,732
From May 1, 1875, to April 30, 1876.....	4,434	3,180	689	9,413
From May 1, 1876, to April 30, 1877.....	4,713	3,580	663	8,526
From May 1, 1877, to April 30, 1878.....	5,068	4,034	604	9,658
From May 1, 1878, to April 30, 1879.....	5,285	4,323	734	10,419
From May 1, 1879, to April 30, 1880.....	5,444	3,995	505	10,309
From May 1, 1880, to April 30, 1881.....	5,781	4,418	553	10,605
From May 1, 1881, to April 30, 1882.....	5,842	4,107	567	12,035
From May 1, 1882, to April 30, 1883.....	5,991	4,423	666	12,174
Carried forward.....	77,327	56,897	10,234	158,953

	Patients examined for admission.	Patients admitted.	Patients accidentally injured.	Number of out-patients treated.
Brought forward	77,327	56,897	10,234	158,953

			225,778 64
Net cost to the city for maintaining Hospital Proper from February 1, 1901, to January 31, 1902, inclusive		.....	$252,430 80

The maximum number of patients in the Hospital on any one day was 495, as against 495 in the previous year. The minimum number was 315, in comparison with 337 for the previous year. The daily average during the year was $409\frac{8}{100}$, and the average length of stay was $17\frac{56}{100}$ days.

The annual cost for the Convalescent Home was $9,631.10. This sum was expended upon 386 patients, who received 7,992 days' or 1,142 weeks' board, at a weekly average cost of $8.43 per patient.

The total number of deaths from February 1, 1901, to January 31, 1902, was 961. This does not include the statistics of the South Department.

Of the deaths, there occurred within 48 hours of admission	365, or .043
Other deaths	596, or .070
Total	961, or .113

the rate of mortality for the year ending January 31, 1902.

This percentage of deaths is for the total number of patients treated in the Hospital. Thirty-eight per cent. of the total deaths occurred within 48 hours after admission.

During the year 8,503 patients were treated in the wards, 28,635 as out-patients, 386 at the Convalescent Home, and 2,808 at the South Department — a total of 40,332 who have received the benefits of the Hospital in all departments.

During the year 12,030 persons applied for admission. Of this number 8,033 were admitted and 3,997 were rejected, the latter being 177 more than last year. The number rejected was 33 per cent. of all persons applying. The causes of rejection appear in the table of applicants not admitted, on page 35. Of the number not admitted, 574 either changed their minds or were deferred. Of this class, however, 226 were admitted within three days after application, and 78 admitted later. There were also rejected 1,142, solely for want of vacant beds, but 618 were admitted later. There were 1,067 applicants who could be treated in the various out-patient departments, without the additional cost of receiving them in the wards. Admission was denied to 244 for lack of information that they were suitable cases. There were referred to other and more appropriate institutions 451, and 85 were rejected as apparently incurable, or unsuitable for treatment here. Various other causes of rejection appear in the tabulated form.

The ambulance service of the Hospital has carried during the year 5,777 patients. Of this number 3,692 were for the Hospital proper and 2,085 for the South Department. The odometers on the ambulances show a total of 25,377 miles

during the year. The record also indicates that one ambulance, with different horses, went 54 miles in one day. The number of accident cases received was 1,091.

The amount expended upon repairs to buildings in all departments of the Hospital during the year was $35,070.64. Of this, $25,884.72 was for the Hospital proper, $14.39 on

the Out-Patient Departments, $724.83 on the Pathological Department, $8,321.42 on the South Department, $99.94 on the Convalescent Home, and $25.34 on the Relief Station. There was expended at the Hospital proper, on boilers and heating apparatus, $5,863; on painting, $3,111.93; on plumbing, $3,835.94; on drains and sewers, $880.04; on refrigerating plant, $471.34; on walls and fences, $1,453.78; and upon general repairs, $7,775.91.

Much new construction has been accomplished for increased accommodations, and various parts of the older buildings have been diverted to new uses. Ward T chambers have been reconstructed, a private stairway made, and a comfortable suite of apartments arranged and furnished for the Assistant Superintendent. Additional offices have been furnished for medical house officers, including a private sitting-room. The chambers formerly used by laundresses have been altered and rearranged, and new quarters given to the male help.

The housekeeper's quarters have been enlarged, so as to include an office, a large storeroom for supplies, and a new sewing-room. All these rooms have been equipped with cases for preservation of goods, closets for blankets, and every necessary convenience. The dispensary has also been much improved with additional fittings and equipment. The entire Hospital has also been supplied with window screens. Nine buildings have been exteriorly painted, and much inside work has been done.

Three crematories have been installed — one at the boiler-house, with a daily capacity of ten tons, a second (smaller one) for the destruction of ward refuse, and a third in the Pathological Laboratory.

The notable event of the year was the completion and furnishing of the new Relief Station on Haymarket square, which is now equipped, ready for use, and will be opened in a few days.

The building is three stories high, with an ell of one story over the subway. It is constructed of brick, with sandstone trimmings, and makes a conspicuous landmark on the site of the old Boston & Maine Railroad Station.

BOSTON PUBLIC LIBRARY

THE BOSTON CITY HOSPITAL RELIEF STATION. ERECTED 1901-2.

The first story is planned to meet the requirements of administration and of the out-patient service. At the main entrance is the general waiting-room, 32 by 28 feet. This room is intended to be a distributing point for the various other rooms. From the left of the entrance is the administration office, the pharmacy and surgeons' lockers. Immediately opposite the front entrance is the attendant's office, where all persons are received. Here are the telephones for the outside service and for the house. By means of two systems of signal bells, all possible conditions affecting the service of the station can be indicated. Upon this floor are five surgical dressing-rooms, all but one being large and commodious. These rooms are furnished like the modern operating-room — marble floors, hospital curved base, glazed tile dadoes, above which is hard plaster finished in enamel paint. Opening from these various surgical dressing-rooms are bath-rooms, intended for sunstroke cases, and storerooms for surgical supplies, all conveniently arranged.

The second story is reached by a stairway from the main hall of the first story, or by elevator, which runs from the basement to the roof. Upon this floor are three wards for patients, each containing six beds. A service-room is arranged in connection with these rooms, and there are also separate toilets, baths, lavatories, etc., for men and women. Adjoining these are two large operating-rooms, between which are property-rooms, instrument-rooms and a room for general surgical supplies. These rooms, like those on the first story, have marble floors, glazed tile dadoes, above which is hard plaster with enamel paint. All the dressing and operating-rooms are on the first and second stories, and are equipped with iron and glass furniture, in accordance with the hygienic requirements of the best standards. At the north end of this floor is the sterilizing-room, which is also used for preparation of bandages and surgical dressings. Upon this floor is a suite of apartments intended for the surgeons and house officers on duty at the Relief Station. They contain a doctors' sitting-room, with adjoining chambers, closets, bath and toilet-rooms. At the extreme north end, opposite the sterilizing-room, is a capacious service staircase of iron, which also serves as a fire-escape.

The third story is divided into three different suites of apartments. Those at the southeast end of the building contain sitting-room for nurses and bed-room accommodations for nine or ten nurses. On the subway side are four chambers for domestics, with suitably arranged bath-rooms, closets, and at the extreme north end a hand laundry for light work. The remainder of this floor is taken up by the kitchen and dining-rooms for officers, nurses and employees, with well arranged refrigerators, storerooms, pantries and china closets.

The roof is made practicable for special use, as patients can be taken to the roof from any floor by means of the elevator. The greater part of the roof is floored over, and surrounded by a protective iron railing six feet high. It is expected that the roof will serve a most useful purpose in the recovery of sunstroke cases during the summer season, and also as a roof garden for the nurses and employees in recreation hours.

At the north end of the first story, and entirely separated from the main part of the building, is the ambulance station and stable. The stable is again separated by another wall and closed doors, and special devices have been made for the ventilation. The ambulance-room is sufficiently large for ambulances to drive in directly from the street, and the doors closed. The ambulance can back up to a platform level with the ambulance floor, and patients can be immediately removed and easily taken by an incline to the first story or by elevator to the operating-rooms on the second story, as cases may require. Over the ambulance-room, in a mezzanine story, are sleeping-rooms for ambulance drivers, porters and male help.

The whole building has been equipped with the best of everything that could be found for its purposes, and may be taken as a good type of a hospital intended for emergencies, located in the business portion of a large city.

The epidemic of small-pox, prevalent during the year, has been the cause of great anxiety. To meet this expected emergency two wooden huts had been ready for service for more than a year. These huts furnished all the practical

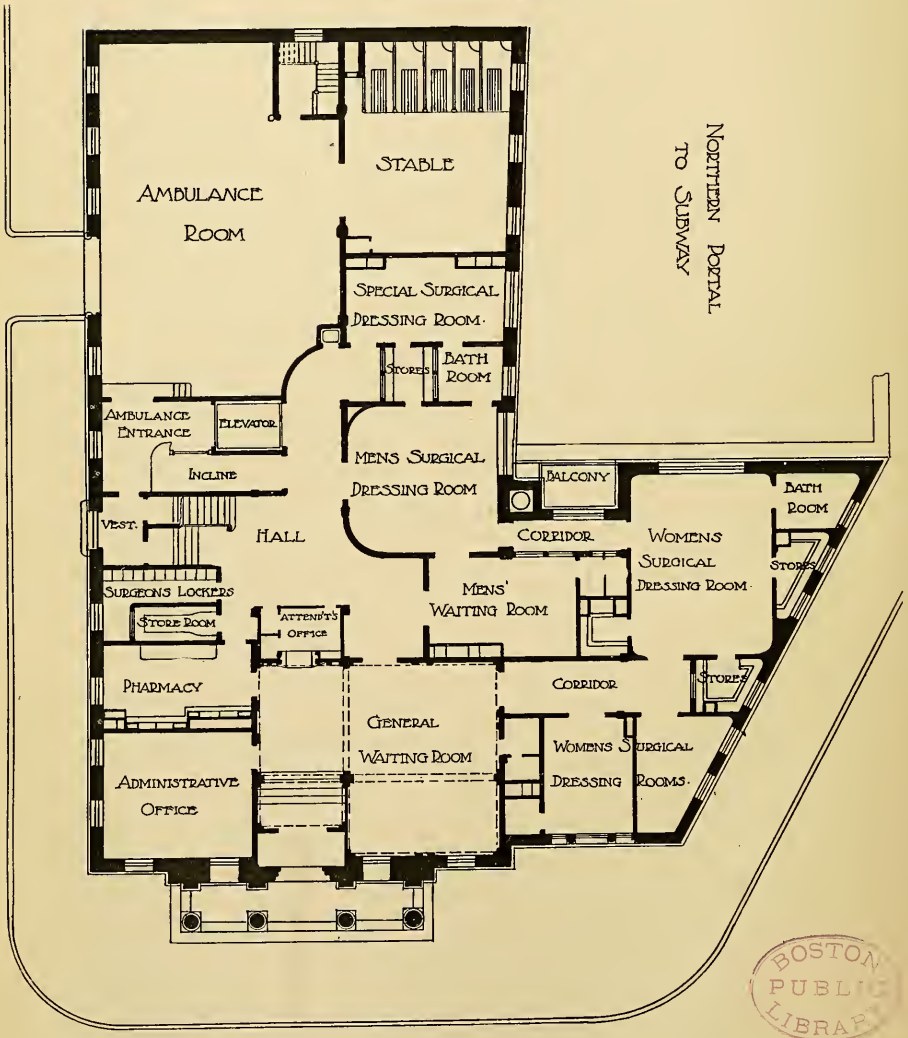
Scale 20



BOSTON PUBLIC LIBRARY

requirements of an isolating hospital, including hot and cold water and electric light. Nurses and orderlies freely volunteered their services. During the season 42 patients suspected of having variola were isolated; of these 15 had varicella or other eruptions, and 27 proved to have variola. During the height of the epidemic it was thought best to close the Surgical Out-Patient Department to all but emergency cases, and to limit visitors to all house patients except to those who were dangerously ill. Even with these and other stringent precautions, eight cases developed in three wards, all traceable to outside infection, which required that both patients and nurses be quarantined, and new patients and visitors be excluded. In no case did the infection spread to any other person.

The statistics of the Convalescent Home, which has just commenced its eleventh year, are as follows:

Number of patients in Home at the beginning of the year, January 31, 1901		30
Admitted during the year		356
Total treated during the year		386
Discharged during the year	362	
Died during the year	0	
		362
Number remaining in Home, January 31, 1902 . .		24
Largest number on any one day		34
Smallest number on any one day		8
Daily average number of patients		22
Average length of stay in days		21

The daily average number at the Home was 22, and the weekly cost per patient, $8.43.

The Medical Library has been increased during the year by 93 volumes, 39 by purchase, and 54 by donation. During the year 312 old volumes, some of them paper-covered, have been exchanged or given away. The total number of volumes at the close of the year was 3,571. The Library has received 610 periodicals, and 779 medical monographs or pamphlets.

The work of card-cataloguing the clinical record-books and autopsy records has been continued, and there is now a total of 170,643 index cards.

The Training School for Nurses has completed its twenty-fourth year. The changes during the year have been as follows:

SUMMARY FROM FEBRUARY 1, 1901, TO FEBRUARY 1, 1902.

February 1, 1901, the number of nurses was .		137
During the year nurses have left as follows:		
Have been graduated	54	
Graduate head-nurses resigned . . .	11	
Pupils dropped for various causes . . .	6	
Probationers not accepted	16	
Withdrawal of graduate special nurses . .	2	
* By death	2	
Total vacancies		91
Number remaining		46
Graduates retained as head-nurses		5
Graduates retained as third-year nurses . . .		12
Probationers admitted		67
Pupil nurses readmitted		5
Graduate specials employed		1
Remaining January 31, 1902		136

Nurses connected with the school, in the Hospital proper, February 1, 1902:

Assistant Superintendents of Nurses . .	3	
Graduate head-nurses	8	
Third-year nurses	12	
Senior pupils, acting head-nurses . . .	4	
Senior assistant nurses	28	
Junior assistant nurses	27	
Probation nurses	15	
Graduate special nurse	1	
		98

		136

During the year 54 nurses have been graduated from the Training School, making a total of 686 since the formation of the school twenty-three years ago. Seven nurses have also completed the third-year course and received the *cum laude* diploma, making a total of 32 third-year nurses.

It is interesting to note that in the history of the school 718 nurses have been graduated. Of this number, 30 have died, 127 have married, 91 are in charge of training schools, or are superintendents of small hospitals, or holding other hospital positions, 7 are practising physicians, 8 are engaged in district nursing, 2 in missionary nursing in Asia, and 3 are in the Philippines or South Africa, as army nurses.

The Superintendent and her assistants have given 214 class recitations at the Hospital proper and 127 at the South Department, making a total of 341 recitations during the year.

The school has received 36 lectures on Friday afternoons from members of the Medical and Surgical Staff and others.

In the month of March there were given five lectures to the third-year nurses and the undergraduates, on sociological topics, as follows: Mrs. James T. Fields, "The Work of the Associated Charities in Boston"; Mr. Robert A. Woods, "College Settlement Work"; Mrs. Margaret Ashley, "The Consumers' League"; Miss O. M. E. Rowe, "The Thrift Movement"; and Rev. Edward Cummings, "The Curve of Social Progress." Our thanks are due these speakers for giving their valuable services.

The cooking classes have been carried on as usual by Mrs. Boland Pequignot, thirty-seven lessons having been given in sections, in addition to the usual three lectures before the whole school.

Mrs. Gulli J. Callowhill has given 102 lessons in massage to nurses in sections of four pupils each.

During the year seven graduate nurses have left the Hospital to fill important positions elsewhere.

Frederick R. Cummings, M.D., resigned as First Executive Assistant, and Frank H. Holt, M.D., was promoted to that position; Harry H. Germain, M.D., was appointed Second Executive Assistant, filling the vacancy made by Dr. Holt's promotion; and William E. Currier, M.D., was appointed Assistant Resident Physician at the South Department.

During the year we have received gifts of clothing from the Needlework Guild, sewing from the Dorcas Society of Emmanuel Church, toys, books, games, for the holidays, from numerous donors, and four Christmas trees were given to the South Department at Christmas by Emmanuel Church. On Christmas and Easter the music and flower commission of the Conservatory of Music gave a most interesting musical entertainment, and distributed flowers to the patients; and the Boston Young Men's Christian Union have furnished drives for 105 convalescent patients.

In presenting this, my twenty-third annual report, to the Trustees, I tender to them my grateful acknowledgments for their continued support and confidence.

I have the honor to be,

Your obedient servant,

GEORGE H. M. ROWE, M.D.

Superintendent and Resident Physician.

BEQUESTS.

GOODNOW FUND. — ELISHA GOODNOW of South Boston, who died in the year 1851, bequeathed to the city "all the rest and residue of my estate, real and personal, not otherwise disposed of," for the purpose of establishing in the Eleventh or Twelfth Wards of the city a hospital for the sick; one half of said fund to be applied for the establishment and maintenance of free beds, which should always be at the disposal and under the control of the officers of the government of said hospital for the time being. Under this will the city came into possession of $26,000 for the support of free beds.

NICHOLS FUND. — LAWRENCE NICHOLS, who died in September, 1862, made a bequest to the city of the sum of $2,000 for "the establishment and endowment of a City Hospital."

NORCROSS FUND. — 1868, January 1. The Trustees received the sum of $2,000 from Hon. OTIS NORCROSS, as the foundation of a fund for the benefit of patients leaving the Hospital poor and destitute of proper clothing.

Balance on hand, February 1, 1901	$200 96
Received interest	80 00
	$280 96
Expended	166 48
Balance, January 31, 1902	$114 48

BALL FUND. — 1870, April 1. The Trustees received from the estate of Mr. JONAS BALL the sum of $1,000 for the same purpose, and under the same restrictions, as the Norcross Fund.

Balance on hand, February 1, 1901	$141 63
Received interest	40 00
	$181 63
Expended	109 09
Balance, January 31, 1902	$72 54

GOODNOW LIBRARY FUND. — 1874. Donation of GEORGE GOODNOW, the interest of which to be expended annually by the Board of Trustees in replenishing the library of the Hospital with books and pamphlets suitable for the reading of the patients during convalescence.

Balance on hand, February 1, 1901	$43 66
Received interest	40 00
	$83 66
Expended	21 64
Balance, January 31, 1902	$62 02

SHAW FUND. — 1875. Bequest of the late MARY LOUISA SHAW, the income of which to be expended by the Trustees for the purchase of flowers and fruit, for the use and comfort of the patients in the Hospital.

Balance on hand, February 1, 1901	$218 11
Received interest	120 00
	$338 11
Expended	122 20
Balance, January 31, 1902	$215 91

PERKINS FUND. — 1889. Bequest of the late MARY G. PERKINS, the income of which is to be expended for books for a medical library at the Hospital, and for the purchase of artificial limbs and surgical appliances for the use and relief of patients leaving the Hospital.

Balance on hand, February 1, 1901	$277 48
Received interest	300 00
	$577 48
Expended	227 37
Balance, January 31, 1902	$350 11

CHEEVER FUND. — 1889. Gift of Dr. DAVID W. CHEEVER, senior visiting surgeon, the income of which is to be semi-annually expended by the Trustees to purchase and present to each house surgeon when his service expires a pocket case of surgical instruments as a gift from Dr. DAVID W. CHEEVER.

Balance on hand, February 1, 1901	$125 74
Received interest	120 00
	$245 74
Expended	90 00
Balance, January 31, 1902	$155 74

CHARLES P. HEMENWAY FUND. — 1894. Gift of Mrs. CHARLES P. HEMENWAY, of $5,000. The interest of this sum to be expended for a free bed, to be known as the Charles P. Hemenway Memorial Bed.

HERBERT L. BURRELL ETHER PRIZE FUND. — 1896. Gift of TOWNSEND WILLIAM THORNDIKE, of $1,000. From the interest of this sum there is to be given semi-annually a money prize to the House Officer who administers ether or other anæsthetic in the most skilful and humane manner.

Balance on hand, February 1, 1901	$72 52
Received interest	40 00
	$112 52
Expended	40 00
Balance, January 31, 1902	$72 52

WYMAN BUILDING FUND. — November 10, 1898. Bequest of the executors of the estate of the late THOMAS T. WYMAN, to be expended by the Trustees for the benefit of the Hospital.

Balance on hand February 1, 1901	$87,191 21
Received interest	1,045 33
	$88,236 54
Expended:	
Relief and Ambulance Station	88,236 54

MORRIS LOUIS FUND. — 1900. Bequest of the late MORRIS LOUIS, of $250, to the Trustees of The Boston City Hospital to be used by them for the benefit of the Hospital.

SILAS DURKEE FUND. — 1900. Bequest of the late SILAS DURKEE, of $15,050, to the City of Boston in trust for the benefit of The Boston City Hospital.

DANIEL S. FORD FUND. — 1900. Bequest of the late DANIEL S. FORD, of $6,000, in trust for the benefit of The Boston City Hospital.

RECAPITULATION OF CITY HOSPITAL TRUST FUNDS.

Morris Louis Fund. — Deposited with the Treasurer of the City of Boston . .	250 00
	$71,800 00

The "Act to incorporate the Trustees of the City Hospital of the City of Boston" (see Acts and Resolves, 1880, chapter 174, approved April 7) provides that "money received by it shall be invested by the Treasurer of the City of Boston under the direction of the Finance Committee of said City; and all securities belonging to said corporation shall be placed in the custody of said Treasurer; *provided*, always, that both the principal and income thereof shall be appropriated according to the terms of the donation, devise or bequest, under the direction of said corporation."

HOUSE RULES,

WITH RULES FOR ADMISSION, GOVERNMENT AND DISCHARGE OF PATIENTS; ALSO RULES FOR VISITORS.

HOUSE RULES.

The doors and gates of the Hospital will be closed at 10 o'clock in the evening, at which time all inmates shall be quiet, and all not on duty shall be in their rooms, unless otherwise specifically permitted.

All officers, nurses and employés of the Hospital, when going and coming to and from the Hospital, shall enter and go out by the Entrance Office, and by no other entrance. Such officers and employés as are required shall use the time-register and method of booking that the Hospital rules require.

A record shall be kept of all persons entering the Hospital between the hours of 10 o'clock in the evening and 7.30 o'clock in the morning.

No employé shall be absent from the Hospital except when permitted by special rules or by the Superintendent.

No officer, nurse, orderly or other employé shall directly or indirectly receive money or other gifts from or in behalf of patients, except with the approval of the Superintendent.

The use of tobacco, wine and intoxicating liquors is prohibited within the Hospital, unless prescribed by the Physicians or Surgeons.

All profane and improper language, loud talking and incivility are prohibited.

All employés shall observe such further rules and directions for their conduct as may from time to time be established.

ADMISSION OF PATIENTS.

Applications for admission of patients may be made at the Hospital, on each day of the week, Sunday excepted, between 9 and 1 o'clock.

Whenever able, a patient shall apply in person for admission; when not able to apply in person, a patient may be

admitted on application made in his behalf, or upon visit at his residence by the admitting Physician.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Patients may be admitted to the privileges of the Hospital at such rates of board as the Trustees may, from time to time, by vote, determine; payment for such board being secured by the friends of the patients or by the authorities of the cities or towns to which the patients belong.

Whenever, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments, or articles not usually furnished at the Hospital, are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

No person having acute venereal disease, or alcoholism, shall be admitted, except as a paying patient.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms which are deemed capable of being relieved.

GOVERNMENT OF PATIENTS.

Patients shall implicitly observe all the rules of the Hospital.

Patients shall be in their proper places in the wards during the visits of the Physicians and Surgeons, and always before 7.30 o'clock in the evening, unless specially excused by the Superintendent.

Such free patients as are able shall assist in nursing, and perform such other services as may be reasonably required of them.

No patient shall leave the Hospital grounds without a pass from the Superintendent, nor leave his ward without the consent of the nurse in charge.

No patient shall purchase, or cause to be purchased for him, any article of food whatsoever, or any other article, without the consent of the Superintendent.

Profane and obscene language, loud talking and incivility are prohibited.

Patients may be visited by clergymen of their own selection, and any wish for the performance of a particular religious rite shall be granted when practicable.

Complaints, for whatever cause, may be made to the Superintendent, and whenever requested shall be by him reported to the Trustees.

DISCHARGE OF PATIENTS.

Patients shall be discharged by the Superintendent.

Patients discharged on the recommendation of the Visiting Physicians or Surgeons shall be provided with a certificate, stating their condition at the time of discharge, whether cured, relieved or not relieved, which certificate shall be signed by the Superintendent.

Whenever a patient is removed from the Hospital without the approval of the Superintendent, a written statement to that effect shall be required from any person assuming the responsibility of the removal.

VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or of some one of the Trustees.

On week days from 2 to 3 o'clock in the afternoon friends may be permitted to visit patients, though no patient shall receive more than two visitors on the same day. In all cases, however, the Trustees and Superintendent may exercise discretionary powers as to excluding or admitting visitors.

When visitors are admitted outside of the regular visiting hours they shall not be permitted to remain more than half an hour, except a special permission to remain for further time is granted.

All visitors shall leave the Hospital when the bell rings at the expiration of the visiting hour.

No visitor shall take any meal in the Hospital, or pass the night therein, without permission of the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to a patient shall be left at the Entrance Office.

SPECIAL RULES FOR THE GOVERNMENT OF THE SOUTH DEPARTMENT.

The department of The Boston City Hospital, located on the westerly side of Massachusetts avenue, shall be designated as the South Department of The Boston City Hospital. It shall receive patients who require treatment for diphtheria and scarlet fever, and for other infectious diseases as may be determined from time to time by the Trustees.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the general control and management of this department, in the same manner as of other departments of the Hospital.

The Rules of the Hospital shall, so far as applicable, and except as hereinafter provided, apply to the various officers and employés and to the conduct and management of this department.

SPECIAL RULES FOR THE GOVERNMENT OF THE CONVALESCENT HOME.

The department of The Boston City Hospital, located on Dorchester avenue in Dorchester, shall be known as the Convalescent Home, and shall receive such patients recovering from acute diseases as shall be transferred to it from the main Hospital for treatment during convalescence.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the control and management of the Convalescent Home, in the same manner as of other departments of the Hospital.

The Superintendent shall appoint, subject to the approval of the Trustees, a Matron, and shall employ, under their direction, such further assistants as may be necessary for the proper conduct and service of the Home.

The Matron, under the direction of the Superintendent, shall have the immediate charge of the Home, and the control of all nurses and other employés and patients. She shall reside at the Home.

ADMISSION AND DISCHARGE OF PATIENTS.

Patients shall be transferred from the Hospital to the Convalescent Home by the Superintendent, subject to the direction of the Trustees, on recommendation of the Visiting Staff or otherwise; and the Superintendent shall keep a record of all patients so transferred. When patients are so transferred they shall be considered as discharged from the Hospital. Payment for board shall be required, the same as of patients at the Hospital, but separate apartments shall not be furnished at the Home. No person whose case is adjudged to be incurable shall be admitted to the Home.

Patients shall not be allowed to remain at the Home for a longer period than two weeks, except on recommendation of the Physicians, or for special cause approved in writing by the Superintendent. All patients remaining beyond the period of four weeks shall be forthwith reported to the Trustees.

Patients when discharged shall be provided with a certificate, stating the date of admission and discharge, and their condition when leaving the Home.

GOVERNMENT OF PATIENTS.

Patients shall implicitly observe all rules established for the government of the Home.

VISITORS.

Friends may be permitted to visit patients on week days, between 3 and 4 o'clock in the afternoon. In all cases the Trustees, Superintendent and Matron may exercise discretionary powers as to excluding or admitting visitors.

Visitors shall leave the Home and grounds at the expiration of the visiting hour, and shall visit no part of the Home or grounds other than the reception-room, except by permission from the proper authority.

No person shall give any article of food or drink to a patient unless by permission of the Matron.

THE BOSTON CITY HOSPITAL.

TRAINING SCHOOL FOR NURSES.

The Trustees of The Boston City Hospital in 1878 established a Training School for Nurses, in order to give to women desirous of becoming professional nurses a systematic course of training and practice.

The Training School is controlled by the Trustees of the Hospital, like all other departments of the Hospital service. The Superintendent of the Hospital has the general supervision of all matters relating to the school, its course of work and study, lectures and discipline. The Superintendent of Nurses has the immediate charge of all the nursing in the Hospital, of all persons employed in the wards, and also the instruction and management of the nurses in the Training School. All female nurses in the Hospital must be connected with the school.

The Hospital in all its departments contains seven hundred and thirty-six beds for patients. The course requires two years, and includes general medical and surgical nursing, together with ophthalmic, aural and gynæcological nursing, and also the nursing of infectious diseases. Maternity nursing is theoretically taught, but there are no maternity wards connected with the Hospital. Those wishing to receive such a course of instruction should apply to the Superintendent of The Boston City Hospital.

The most desirable age for candidates is from twenty-three to thirty-five years. They must be of sound health, and should send with their application a certificate from a physician, certifying to the fact. They should also send a brief personal history, and give the names and addresses of three responsible persons, not of their own kin, who know of their good character and capabilities. Upon the recommendation of the Superintendent and the approval of the Trustees, they will be received for two months on probation. The fitness of candidates for the training and work, and the propriety of retaining or dismissing them, will be determined by the authorities in charge of the school, under the direction of the Trustees.

An entrance examination is given to all candidates before or during the term of probation. The examination is in simple arithmetic, English composition and writing from dictation.

At the end of the first month, candidates, if considered satisfactory, are permitted to wear the cap and enter upon the regular course of training, but such candidates are not permitted to join the school formally until the end of the second month, when, if accepted, they sign an agreement to complete the prescribed course of two years, and to conform to all rules. At the end of the first six months the record and work of each pupil are carefully scrutinized as to her fitness to make a good nurse, and the right is reserved by the authorities of the Hospital to terminate then, or at any time, the connection of any pupil or nurse with the school, for inefficiency, misconduct, generally unsatisfactory record, or for any other reason which may be deemed sufficient.

During the first two months pupils are called Probationers, for the remainder of the first year Junior Nurses, and during the second year Senior Nurses. Nurses who remain in the Hospital after graduation become Head Nurses.

The nurses in the Training School (including Probationers) reside at the three Nurses' Homes connected with the Hospital. The houses afford home-like surroundings, and have the best of conditions necessary to good health and personal hygiene.

The Superintendent of Nurses has the immediate charge of the Training School, under the authority of the Superintendent of the Hospital and of the Trustees, and the nurses are subject to the rules of the Hospital, like any other service.

The instruction includes the general care of the sick, the making of beds, changing bed and body linen, managing of helpless patients in bed, etc.; giving baths, keeping patients warm or cool, prevention or dressing of bed-sores, and proper management of the patient under various conditions, with different diseases or injuries; the making and applying of bandages and rollers, preparation of splints, application and management of surgical apparatus, applying of fomentations and poultices, the dressing of burns, ulcers, and wounds, and other minor dressings, cupping, leeching, and subsequent treatment, and the administering of enemas.

Nurses are taught how to act in the various emergencies occurring in Hospital and private nursing, as well as in the accidents of ordinary life. They are also given lessons in *massage* by a professional instructor. There is a systematic

course of training in cookery for the sick, the serving of food and delicacies in the proper manner, and the feeding of helpless patients, or those who resist food.

Instruction is also given in the best practical methods of supplying fresh air, of warming and ventilating sick rooms in a proper manner, and the proper care of sick rooms for the best good and comfort of the patient; in keeping all utensils and appliances perfectly clean and disinfected; in making accurate observations of the pulse, temperature, respiration, expectorations, the secretions, state of the skin and eruptions; of mental condition as to delirium, stupor, shock, etc.; of the condition as to sleep, appetite, effects of diet or of stimulants and medicines; the behavior of wounds and the after treatment in surgical operations; and in the managing of convalescents. Nurses are taught the administering of medicine and the application of external remedies, how to take notes on cases, the making up of the nurses' record, and the reports to the attending doctor.

The course of training includes a fixed course of instruction during the two years from manuals and text-books, mainly given by the Superintendent of Nurses, the Assistant Superintendents of Nurses and graduate head nurses. Lectures and demonstrations, chiefly upon practical points, are given at stated times by the medical and surgical staff of the Hospital. While the instruction by the manuals, text-books, lectures, demonstrations, quizzes and models is considerable, the main reliance is upon accurate daily drill in the wards, operating rooms and other departments of the Hospital. Examinations, both oral and written, are held from time to time by the authorities of the school, and nurses will not be graduated unless they attain, on critical marking, at least 70 per cent.

The pupils are employed as assistant nurses in the wards, operating rooms, out-patient departments of the Hospital and the down-town Relief Station. They are given six months' training in medical wards and six months' in surgical wards; the remainder of the time to be in such wards or departments as the management may appoint.

Probationers are not paid during their first month, but for the remaining months of the junior year they receive seven (7) dollars per month, and for the senior year, ten (10) dollars per month, to pay for the expenses of their uniform, personal clothing and other minor requirements. This sum is in nowise intended as wages, it being considered that their education during this time is a full equivalent for their services. When the term of two years is completed the

nurses receive, if they pass all the examinations and are otherwise satisfactory, a diploma certifying to the regular course of training and practice, and are then permitted to wear the graduates' badge of the school. An optional third year course is provided for those graduates especially adapted to institutional work and who have passed the preliminary examination. At the completion of this course a special diploma *cum laude* is conferred.

The majority of graduates engage in private nursing, but some are invited to remain in the service of the Hospital as head nurses, with opportunities of promotion. Graduate head nurses who prefer to remain in hospital work, or return after a term of private nursing, are given post-graduate instructions in ward management, hospital housekeeping, and minor administration.

The school year has no fixed date, but accepted candidates may enter whenever vacancies occur. They are, as a rule, received in the order of acceptance, but those desiring to enter with less delay can generally anticipate a fixed date by placing themselves on the emergency list. When coming to the Hospital they should bring with them the following articles: Three gingham or calico dresses, made plainly; eight large white aprons, made of bleached cotton, two yards wide, meeting in the back, with bibs, without straps, plain at the top and gathered slightly at the bottom, two pearl studs on the band, two inches wide, with hem at bottom five inches in depth and two inches from bottom of the dress; two bags for soiled clothes; one pair of scissors, a pin-ball and a napkin ring; a good supply of plain underclothing — every article to be distinctly marked with pen and indelible ink with the owner's name. Twenty-one pieces are allowed for the laundry each week.

Nurses must bring suitable outer garments for stormy weather, and they are required to wear boots that will be purchased on prescription of our Orthopædic Surgeon, after coming to the Hospital. If the teeth are out of order in any way they must receive attention before coming for the probationary month. Nurses are required to wear the Training School uniform after they join the school. Material for dresses will be sold at cost price; caps are furnished at a nominal price.

Hours of duty for day nurses are from 7 A.M. to 8 P.M.; for night nurses from 8 P.M. to 7 A.M. No nurse is required to do both day and night duty on the same day, except in rare emergencies. Each nurse on day duty is allowed one hour after 1.30 o'clock P.M., for rest and recreation, one-half

day after 1.30 P.M., each week, and four hours on Sunday. Two weeks' vacation with pay is allowed each year. If nurses are sick they are cared for in the Hospital, but wages are stopped. Pupils may be expected to have a percentage of any considerable time lost by illness or absence added to their two years, at the discretion of the management. Nurses on night duty are required to be in bed from 9 A.M. until 4 P.M. Nurses may be called upon for five months' regular night duty during the two years' training; besides "special cases" to a limited number.

COURSE OF INSTRUCTION.

JUNIOR YEAR.

Manual of Hospital Nurses (1) . . . . . *Domville.*
Manual of Nursing: Medical and Surgical . . . . . *Humphrey.*
Lectures on Fever Nursing (2) . . . . . *Wilson.*
Notes on Surgery for Nurses . . . . . *Bell.*
Physiology, Anatomy and Hygiene (3) . . . . . *Hutchison.*
Glossaries, tables, technicals, etc. . . . . *Various.*
A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.
Critical Reviews on the lectures given by the Medical and Surgical Staff.
Instruction in the Wards by Head Nurses and Senior Nurses.

SENIOR YEAR.

Handbook for Hospitals (1) . . . . . *Woolsey.*
Handbook of Obstetrical Nursing (2) . . . . . *Fullerton.*
General Anatomy, including instruction from Charts, Models, and the Skeleton.
Elementary Materia Medica (3) . . . . . *Various.*
A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.
Practical Instruction in *Massage.* (Six lessons.)
Practical Instruction in Cooking for the Sick. (Eight lessons.)
Instruction in the Wards by Assistant Superintendent of Nurses, Night Superintendent of Nurses, and Head Nurses.
Instruction and drill in the etherizing, operating, and recovery rooms by the Operating-Room Nurses.

THIRD YEAR.

Anatomy and Physiology for Nurses . . . . . *Kimber.*
Bacteriology and Surgical Technique . . . . . *Stoney.*
Nursing Ethics . . . . . *Robb.*

Collateral Reading.

(1) Medical Nursing . . . . . *Anderson.*
(2) Lectures on Nursing . . . . . *Lückes.*
(3) Notes on Hospital Nursing . . . . . *Florence Nightingale.*
(4) Anatomy and Physiology for Nurses . . . . . *Kimber.*

DISTRIBUTION OF STUDIES.

Monday,	11.45 A.M.	Head Nurses; hospital administration, ward management, minor executive work, training of Assistant Nurses.
	2 to 3 P.M.	Senior Nurses [section], *Massage.*
	2 to 5 P.M.	Senior Nurses, Cooking Lesson.
	3 to 4 P.M.	Junior Nurses [section], *Massage.*

Tuesday,	11 A.M.	Senior Nurses [section], Operating-Room.
	2 P.M.	Junior Nurses [5th class], Recitation.
	3.30 P.M.	Junior Nurses [3d class], Recitation.
Wednesday,	3 P.M.	Junior Nurses [4th class], Recitation.
Thursday,	2 to 3 P.M.	Senior Nurses [section], *Massage.*
	3 to 4 P.M.	Junior Nurses [section], *Massage.*
	3.30 to 4.30 P.M.	Third Year Class, Recitation.
Friday,	11 A.M.	Senior Nurses [section], in Operating-Room.
	2 P.M.	Senior Nurses [1st class], Recitation.
	3 P.M.	Senior Nurses [2d class], Recitation.
	4 P.M.	Lecture to School in Operating Amphitheatre by a member of the Medical and Surgical Staff.
Saturday,		Preparation of Lecture Notes.

LIST OF LECTURES AND SUBJECTS.

A lecture is given to the Training School on Fridays at 4 P.M., in the Operating Amphitheatre, by a member of the Medical and Surgical Staff, once a week between September 15 and June 15. The following are among the lectures given:

Five.— Surgical Dressings: poultices, washes, fomentations, bandaging, splints, leeches and blisters, enemas, surgical hæmorrhage, etc.

Three.—Theory of Wounds: modes of healing, granulations, ulcers, cellulitis, suppuration, sloughs, erysipelas, pyæmia, gangrene, sepsis, etc.

Three.—Bacteriology, brief history and general theory: micro-organisms; general distribution in air, water, etc. Elementary consideration of pathogenic and non-pathogenic micro-organisms. Exhibition of apparatus and cultures. Practical points for nurses.

Two.—Theory of sepsis: aseptic treatment, different methods; dressings, with demonstrations and "quiz drill."

Two.—Emergencies: hæmorrhages, burns, heat-stroke, fits or seizures, drowning, fractures, immediate treatment of wounds and injuries, foreign bodies in eye, nose and ear, poisons, domestic emergencies, and practice of expedients.

Two.—Surgical anatomy and landmarks, hæmorrhages, etc.

One.—Surgical operations: care of patients before, during, and after operations; anæsthesia and recovery; accidents, hæmorrhage, shock, especially as in private nursing.

One.—Abdominal Surgery: including ovariotomy, herniotomy, operations for abdominal injuries, etc.

One.—Fractures: varieties, preparation and care of splints and apparatus for treatment, management of cases, etc.

Three.—Medicines: avenues of taking; preparation and doses; classes of internal and external poisons; cautions; hospital formulæ.

One.—Nursing in Fevers: theory of fever, symptoms and course of, different plans of treatment, nurses' duties as to symptoms, bed, clothing, secretions, baths, food and management of cases.

Four.—Infectious fevers, especially diphtheria and scarlet fever; symptoms and course of disease; complications; infection and contagion; special nursing in croup, laryngitis, tracheotomy, intubation, etc.; management of patient, and surroundings; personal hygiene of nurse in attendance, etc.

Two.—Symptomatology in Disease: what and how to observe accurately; vital organs and special symptoms. The model sick room: temperature, light, ventilation, care of bed, bedding and clothing, furniture, utensils, disinfection, cleansing, dusting, etc.

Three.—Care of Children in Health and Disease; diet and clothing of infants and children; various infantile diseases.

Two.—Physiology of Pregnancy and Labor; delivery, confinement, nursing.

One.—On Gynæcological Nursing: preparation of patient for examination or operation; treatment after operations, douches, use of catheter, etc. (Demonstrations to sections of senior nurses in Ward S operating-room.)

One.—Special Nursing in Nervous Diseases, including the insane.

Two.—Special Nursing in Skin Diseases and Syphilis in the Infant and Adult.

One.—Special Nursing in Diseases of the Eye and General Care in Health and Disease.

One.—Special Nursing in Diseases of the Ear; its care in health and disease; nurses' duties at operations and continued treatment in disease.

Two.—Food Values and Principles of Cooking Food.

One.—Urine: characteristics, properties, including taking notes on same, and brief analysis. Drill in laboratory by classes in sections.

One.—Massage: its history, theory, and modes of application.

Three.—Visceral Anatomy: demonstrations by post-mortems; care of the dead, etc.

One.—Suggestions to those about to engage in private nursing.

Five.—On sociological topics: for the Third Year Class.

LIST OF GRADUATES.

THE BOSTON CITY HOSPITAL TRAINING SCHOOL FOR NURSES.

Arranged According to Year and Sequence in Graduation.

[* Married. † Died.]

[The Badge of Graduate Nurses.]

1879.

† Miss Rosa McCormick,
" N. Elizabeth Fillebrown,
† " Mary L. Kelso,
Miss Elizabeth A. Andrews,
* " Myra E. McIlvin,
* " Martha J. Blackwood. (6)

1880.

Miss Asenith Clement,
Mrs. Margaret Little,
Miss Annie Cochran,
† " Louisa Morrill,
Mrs. Lucy Rice,
* Miss Eva Hallowell,
" Mary E. Prescott,
† Mrs. Susan M. Hatch,
† Miss Olivia Hews,
" Mary Monteith,
† " Victoria O. Fowler,
* " Minnie Gilman,
" Anna C. Maxwell,
Mrs. Sarah Cooke. (14)

1881.

† Miss Mary Mack,
* " Jennie Shotwell,
* " Flora Hadley,
† " Mary Choate,
† " Georgeanna Russell,
Mrs. Endenilla S. Neily,
Mrs. Mary Griswold,
*†Miss Lilly Birkbeck,
* " Josie Smith,
* " Mary A. Ferrin,
" Helen M. Hall,
† Mrs. Bertha J. Raemisch. (12)

1882.

† Miss Carrie L. Barrell,
Mrs. Kittie C. Soule,
* Miss Georgia L. Forbes,
" Laura A. C. Hughes,
* Miss Annie Martell,
" Mary Quinn,
" Julia Macrae,
" Annie E. Barker. (8)

1883.

* Miss E. Adelaide Nason,
" Mina P. Hill,
* " Christina M. Gregoire,
† Mrs. Jane E. Young,
Miss Myra C. Hight,
" Susie H. Hamblet,
" Rose A. Duffy,
" Mary C. Morris,
" Sarah W. Emerson,
" Clara E. Bowen,
" Kate M. Fitzgerald,
" Margaret McKenzie,
" Jennie B. McIntosh,
Miss Ida M. Welsh,
* " Annie Soper,
" Susan Bradley,
* " Maria Aanrud,
* " Jane Howell,
" Emma L. Stowe,
" Elizabeth Stewart,
" Clara C. Tubman,
" Mary E. Gordon,
" Lucinda McBride,
" Eliza F. Spencer,
* " Mary L. Drown. (25)

1884.

Miss Lucy L. Drown,
* " Annie J. Ellers,
† " Fanny A. Tucker,
* " Elizabeth Rinker,
" M. Elizabeth Barr,
* " Elizabeth Banister,
" Abbie A. Reed,
† " Margaret McKean,
" Armina C. Manchester,
" Harriet M. Seaver,
Miss Bessie S. Morrill,
* " Ellen A. Dunton,
" Margaret Macdonald,
" Anna M. Battelle,
* " Lillian I. Price,
* " Sarah G. Whitney,
" Mary E. Scannell,
Mrs. Mary B. Runyan,
Miss Catherine Murray. (19)

1885.

Miss Fannie A. Prindle,
" Adelie B. Braman,
* " Minnie Starr,
" Clara D. Hoar,
" H. Josephine Shepherd,
" Sarah M. Cushing,
" Clara M. Rowell,
*† " Glendine Malkson,
" Lida S. Young,
" Annie S. Miller,
Miss Jessie J. Glen,
* " Mary E. Woods,
* " Emily Neale,
" Mary J. Rimmer,
* " Kate G. Early,
* " Helen L. Godding,
" Julia E. Reed,
" Colina E. M. Somerville,
* " Jessie Read. (19)

1886.

* Miss Alice E. Cole,
* " Emma J. Gordon,
† " Sarah E. Snow,
* " Mary E. Stimson,
" Georgianna Shaw,
" Flora E. Welch,
" M. Annabel Moore,
" Emma E. Cole,
" Lucretia F. Williams,
" Mary C. Stewart,
" Emma B. Morrison,
* " Mary A. Martin,
* " Rosina G. Brine,
" Ruth A. Bassett,
" Mary A. White,
Miss Emma R. Trafton,
" Susie B. Swanton,
Mrs. Mary E. Bradbury,
Miss Cicely M. Whitaker,
† " Elizabeth Fearon,
" Ella A. Starkweather,
" Lizzie A. Wilber,
" Mary J. Dunway,
Mrs. Josephine S. Wood,
" Isabella R. Outerbridge,
Miss Mary Fyfe,
" Anna M. Hawes,
* " Olivia Byrne,
" Agnes C. Haley. (29)

1887.

Miss Luise Gibbpeck,
" Mary Grugane,
" Maria Wagner,
" Libbie S. Ainsworth,
" Charlotte A. McCallum,
" Frances H. Petrikin,
" Mary A. Hahn,
* " Delia O'Brien,
" Lucia E. Weymouth,
* " Julia A. Purdy,
† " Harriet M. Wallace,
" Alice E. Bailey,
" Helen A. Quinn,
" Mary E. Kenney,
† " Sarah M. Webber,
Miss Emily A. Rogers,
" Ruthett Adams,
* " Louise J. Knaut,
" Caroline H. Keer,
" Oceania Nickerson,
* " Abbie J. Jenkins,
" Flora Macrae,
" Alzine M. Castlebury,
* " Sarah C. Hamlyn,
" Elizabeth J. Fay,
* " Jeanie White,
" Jennie Dudley,
" Frances L. Mackie,
* " Olive A. Hawes,
* " Evangeline McDonald. (30)

1888.

Miss Emma J. Jones,
* " Flora E. Hodges,
" Stella Lyman,
" Bertha Elliot,
* " Alicia Ring,
" Maria B. Clark,
" Maria L. Eustis,
" Emily O. Boswall,
" Eleanor Cobb,
" Eva M. Homer,
Mrs. Alice H. Porter,
Miss Alice M. Hodgson,
" Belle A. Stevens,
" Myra A. Swain,
" Mary E. Collingwood,
" Almeda J. Goodspeed,
" Ella M. Gordon,
" Lucia F. Vickery,
" Evelena Chapman,
* " Helen Coull,
" Lilia M. Alexander,
" Mary O. Barnes. (22)

1889.

Miss Mary M. Riddle,
* " Ella E. Owen,
" Alice G. Symonds,
* " Emmanette Veazie,
" Mary A. Morris,
" Maggie J. Thompson,
" Annie Monroe,
* " Mary E. R. Wilkinson,
" Jennie R. Dix,
* " Rosalin A. Meggison,
* " Mary O. Ellms,
" M. Affia Martin,
" Abbie A. Bliss,
* " Anna R. French,
Miss Catherine M. Haggart,
* " Abbie F. Proctor,
" Emma E. Penfold,
* " A. Etta Bodwell,
" Rose Morgan,
" Annie E. McCarthy,
* " Mabel H. Tibbetts,
" Mary E. Jones,
" Louisa L. Smith,
" Eliza Jones,
" Mary Scarlett,
* " Sarah L. Richardson,
" Jessie M. Symonds,
" Rachel Gordon. (28)

1890.

Miss Mary T. Carroll,
*† " Jennie M. Harlow,
" Harriet H. Page,
" Elizabeth Rice,
" Charlotte F. Grant,
" Carrie B. Whallon,
" Catherine A. McNally,
Mrs. Ida M. Rice,
Miss Anna Harms,
" Catharine B. Graham,
* " Amalie H. Lakemann,
* " Mabel Van Cortlandt,
" Sarah M. Cox,
" Grace H. Raine,
Mrs. Annie L. Ray,
* Miss Henrietta Rankin,
* " Margaret J. Moore,
" Margaret A. Motschmann,
" Grace G. Pillsbury,
† " Eliza F. Wadsworth,
" Elizabeth Olmsted,
" Annie C. Chamberlain,
" Fannie P. Cooke,
" Alice G. Dexter,
" Florence E. Levensaler,
* " Bessie Sands,
" Kate M. Walsh,
" Minnie McLeod,
" Clarissa A. M. G. Baldwin,
" Cynthia A. Spencer. (30)

1891–2 (13 mos.).

Miss Lucetta J. Gross,
" Ellen Magner,
" Susan E. Stamer,
* " C. Isabelle Wright,
* " Addie E. Waterman,
" Ethel Sharpley,
" Sarah L. Taylor,
* " Jessie C. Pearce,
" Ida A. Nutter,
* " Mary Brennan,
" Janet Anderson,
* " Elizabeth A. Lary,
* " Anna R. Collins,
" Sarah E. Hilt,
" Delia Knight,
" Mary E. Comey,
† " M. Georgena McNear,
Miss Elizabeth E. Spratt,
" Etta A. Chamberlin,
* " Minnie S. Nickerson,
" Henrietta B. Chisholm,
" Annie L. Mullen,
" Anna S. Langin,
" Lydia A. Brewster,
" Laura B. Bingham,
* " Lucy S. Byles,
" Jessie MacDonald,
" Maria A. Nicholl,
" Nora McCormick,
" Mary A. Foster,
* " Elizabeth J. McGeachy,
" Minnie J. Stowe,
" Emma T. Eliott,
" Alice T. Myrick. (34)

1892–3.

Miss Martha S. Barr,
" Elizabeth C. Fairbank,
* " Margaret E. Nelligan,
† " Sadie R. Harbourne,
* " Annie S. Clapp,
† " Julie M. Rogivue,
" Annie B. Dick,
" Grace M. Hart,
" Mary Jones,
* " Anna B. Jordan,
* " Nettie M. Burnett,
" Hulda J. Oliver,
" Inez Maud Wright,
* Miss Myra Fletcher,
" Susie J. Hill,
* " Janet Rutherford,
* " Alberta E. Trueworthy,
" Elizabeth Sloan,
" Mary A. Neil,
* " Mabel I. Walsh,
* " Lillian M. Palmer,
" Eva F. Lucas,
" Mary Eva Moore,
" Alfaretta Small,
" Mary L. Cook. (25)

1893–4.

Miss Alma C. Hogle,
" Anne C. Parker,
" Lizzie H. Perley,
" Mary A. Douglass,
" Marian I. Dooley,
* " Nellie T. Cranitch,
" Mary L. Annis,
* " Harriott Attwood,
" Mary McNeill,
" Alicia S. Dawson,
" Mabel G. Gragg,
" Agnes B. Scally,
" Esther M. Packard,
" Fannie R. King,
" Christina S. Brown,
* Mrs. Alice M. Davie,
Miss Ada McCulloch,
" Frances E. Morley,
" Cora A. Plummer,
" Maud T. Henderson,
† Miss Lulu M. Plant,
" Bertha E. Watt,
" Nellie E. Farr,
" Alice E. Cardall,
" Ray Hood,
" Margaret A. Kenney,
" Lela Wilson,
" Lilla J. Temple,
* " Harriet A. White,
" Charlotte W. Dana,
" Cora E. Murdoch,
" Lillian M. Graham,
" Katherine S. Sharpe,
* " A. Ethelyn Butler,
" Annie L. Macneill,
" Cornelia H. Crawford,
" Ella M. Allen,
" Netta E. Blackwood,
" Alice N. Carter,
" Elizabeth F. Macaulay. (40)

1894–5.

Miss Helen H. Ilsley,
" Laura E. Waterman,
* " Margaret M. Thurston,
* " Annie Gordon,
* " Lizzie H. Smith,
" Lodina A. Grignon,
" Sarah J. French,
" Martha W. Meek,
* " Frances D. Shetland,
* " Anna A. Rich,
" Ethelyn M. Lombard,
" Julia A. Godvin,
" Lucretia S. Smart,
" Mary Jennetta Patterson,
* " Emma L. Pray,
* " Amy Denton,
" Elizabeth F. Dickie,
Miss Catherine Hughes,
" Isabella Smith,
* " Gertrude M. Thresher,
* " S. Anna L. Tirrell,
" Ella M. Stewart,
" Susan M. Foley,
" Selina R. Lockhart,
" Minna Wolff,
Mrs. Esther L. Kenney,
" Sarah W. Tarr,
Miss Elizabeth F. Paty,
" Ellen Smith,
" Dora B. Wells,
" Alice M. Robinson,
" Susane F. Robbins,
* " Olive E. Coburn. (33)

1895–6.

Miss Ellen Murray,
" Frances L. Russell,
" Effie A. Buell,
" Elizabeth Grainger,
" E. Gertrude Parker,
Mrs. Clara J. Goudey,
Miss Mary E. Wight,
" Mary C. Van Dyck,
" Lilla L. Davis,
" Margaret Creighton,
" Marie T. Eckert,
* " Margaret Ross,
" Sarah E. Farrand,
* " Helen C. Worthley,
* " Ella L. Hall,
" Frances Wills,
* Miss Margaret MacKinnon,
* " Christina J. Dunbar,
" Margaret E. Elworthy,
" Annie E. Irving,
" Julia M. Bye,
" Louise MacP. Coleman,
" Bertha Stewart,
" Elizabeth F. Bowness,
* " Kathleen K. McSweyn,
